

## OFFICERS:

- President – Wayne Collins
- Vice President – Larry Dunklee
- Secretary – Bernie Feinerman
- Treasurer – Bob Hopkins

Our Website: <http://www.oceanwoodturners.com/>: Webmaster: Member, Henry Allsworth  
A chapter of the American Association of Woodturners: [www.woodturner.org](http://www.woodturner.org)

### *Minutes of the January 21, 2009 meeting.*

New visitors in attendance: Natalie Caetans, Paulo do Carmo, Jim Clark (Cranston), John Bossian (Wakefield), Dave Audette (Warwick), Rickard Weyman (W. Greenwich), Enos Groff, and Bob Morin (W. Greenwich). Seven people joined the club: John Bossian, Rickard Weyman, Enos Groff, Bob Morin, John Drapala, George Lough, and Art Schloth.

Treasury Report: \$3170.00. Wayne Collins gave Bob Hopkins proof of our AAW insurance which Bob will keep in his possession.

#### **OLD BUSINESS:**

Vesery Demo at North Kingston Senior Center, 10 Beach St., N. Kingston RI, on Saturday 2/20/10. Price is \$30 which includes lunch. There are still openings for the hands-on day with Vesery on Sunday 2/21/10.

Arthur Schloth, (Plastic Lumber RI) brought some 1" thick by 4" x 4" squares of plastic lumber for club members to try out. See <http://www.plasticlumberRI.com/> for more information about his product.

{Emilio Iannucillo reported privately after the meeting: "I turned the ballaster made of recycled plastic bottles. It turned like butter. But, the plastic came off in strings that would not break. They wrapped themselves around the turning and made a rats nest. Had to stop the lathe often to clean out the plastic strings. They did not break and had to be pulled off whole. Not a pleasant job. It did get done"}

Our Steam Engine : George Nazareth brought up getting the club steam engine resurrected to display at the AAW Symposium in Hartford in June. Larry Dunklee and Bill Smith are trying to find the fly wheel of the steam engine which seems to have disappeared from the Mill where it was stored. A police report will be filed.

#### **NEW BUSINESS:**

Wayne mentioned that a friend of his has a Yoga business in Fall River, MA. She will allow club members to display turnings in her place (details need to be worked out).

### **Show and Tell**

Anthony Scuncio showed an Oak Natural Edge Bowl

and a Walnut bowl

Bill Smith - quilted maple bowl

Ed Dowd - segmented bowl

George Nazareth segmented vase 7 1/2 inches high, 5 3/4 inches wide; Purpleheart, Oak, Walnut, Cherry, and Maple. Finished with about 6 coats of salad bowl oil. I then thought it was too glossy, so I recoated over the salad bowl finish with one coat of low-gloss lacquer.

Marc Blanchette - celtic knot made of Maple and Purple Heart

Mike Murray showed two pieces: soft maple bowl with a little spalt and dyed with TRANSFAST POWDER DYE plus some silver leaf & gold paint.

Rock maple textured with a Lancelot chain using 4 1/2" angle grinder

Paul Taveres segmented vase used curly maple and paduck and used Maylands finish,

Ray Alexandre segmented star bowl used cherry for the base, walnut on the top ring and walnut and maple on for the eight point star medallion (inside bottom). The finish is wax (Craftsman's Pride) buffed with tripoli, white diamond and carnauba.

Anyone with photos, or ideas, of interest to the club, should send them to Henry Allsworth. [henry@allsworth.com](mailto:henry@allsworth.com)

**Demonstration**  
Dave Eaton demonstrated how to make a lidded box with finial

A few boxes and the final product of the demonstration
