Webmaster: Member, Dick Larowe

A chapter of the American Association of Woodturners: www.woodturner.org

August, 2006, “Turnings”

President Mike Murray acknowledged a visitor at our meeting. Bill Lee of Pawtucket introduced himself to the membership. Bill joined the Ocean Woodturners before the meeting was over.

Emilio Iannuccillo reported that the Ocean Woodturners will be sponsoring a demonstration by Mike Allison who specializes in adding coloring and piercings to turnings. This demonstration will be held on October 14, 2006, at the North Kingston Library from 9:00 AM to 3:00 PM and will cost \$10.00 per person. There will be more information on this event in the future.

Mike Murray brought up the Yankee Woodturning Symposium which will be sponsored by seven of the woodturning groups in our area and will be held June 1, 2, and 3 of 2007. The following is the latest plans of the Symposium.

YANKEE WOODTURNING SYMPOSIUM

COMMITTEE DESCRIPTION AND VOLUNTEER STATEMENT

The Yankee Woodturning Symposium will be held on June 1, 2, 3, 2007 at Wesleyan University in Middletown, Connecticut. All seven southern New England chapters of the AAW are committed. We now need volunteers to staff the various committees and get started on organizing. Ideally, we would like to have members from every chapter on each committee. Committee descriptions are set out below. Make your selection on the sign-up sheet

Budget & Finance

This is where the buck stops and goes. The task is to develop a budget for the symposium based upon the input from each of the other committees. All contracts will pass through this group. Arrangements for credit card processing, collection and disbursement of funds. We have an existing bank account funded with the \$1,000 contributions from each of the seven participating clubs. Contact person: Andy Osborne, MSSWA, 781-769-6070, simpnat@msn.com

Education and Youth

1) Demonstrations by some young members. We would like to hear from any young turners interested in putting on a demo and what topic they would like. We already have two.

2) We will have one morning and one afternoon demo each day with the second session in the morning and afternoon being a hands-on for young turners being taught/supervised by adults.

We will need probably 6 mini lathes and one full size for the demonstration purposes
